

Project 4: Method & User Study Summary

Generated on 2025-07-16 17:08

Task 1: Guided Recommender

- Matrix Factorization with cold-start support
- Latent dimension $K = 20$
- Regularization $\lambda = 0.1$
- Shows user influence on future predictions

Task 2: User Study Design

- A/B between-subjects: see-impact vs. no-impact
- Metrics: completion, satisfaction, diversity
- Recruitment: mailing lists, social media

Task 3: Study Interface

- User rates 10 movies from the database
- UI updates top-N recommendations live
- Optional: show how scores would change
